EARTHQUAKE EXODUS, 1906 *Berkeley Responds to the San Francisco Refugees*

Richard Schwartz, our speaker, earned an A.B. degree from Temple University in 1973 and arrived in Berkeley a few months later. While working as a fire fighter in the Sierra, he came across a mysterious sixty-five-foot stone circle near Truckee. Researching its possible origins led to his first book, *The Circle of Stones*. His new book explores a unique aspect of the San Francisco Earthquake and Fire.
